Levels of health intervention

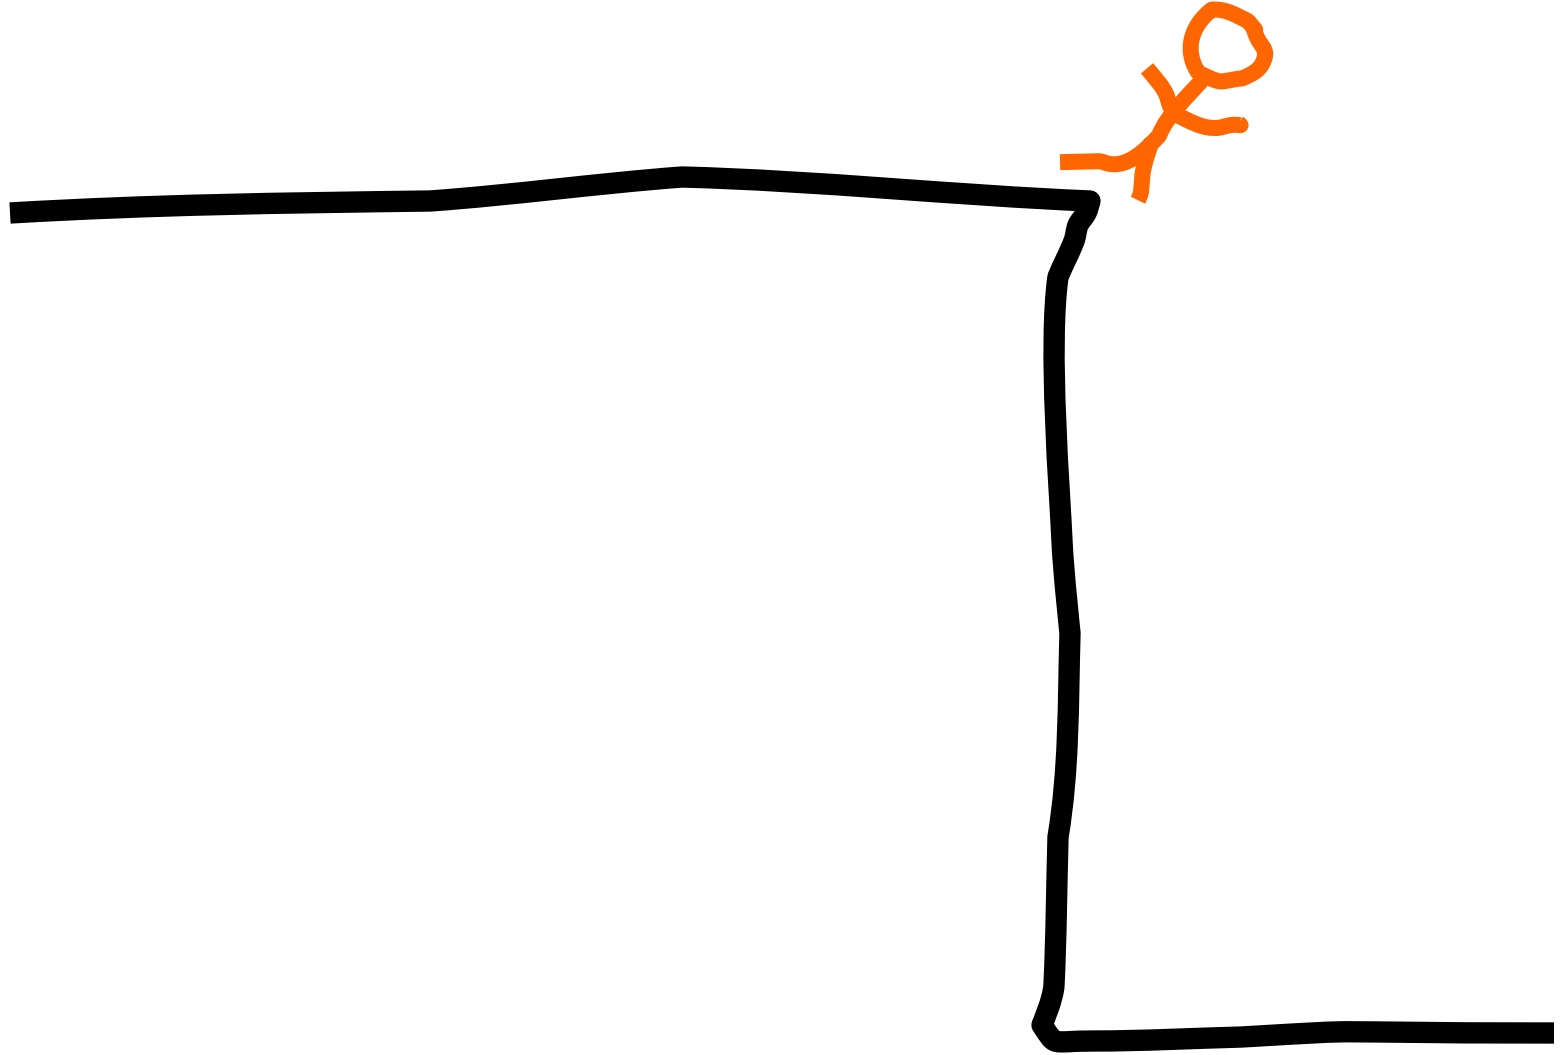

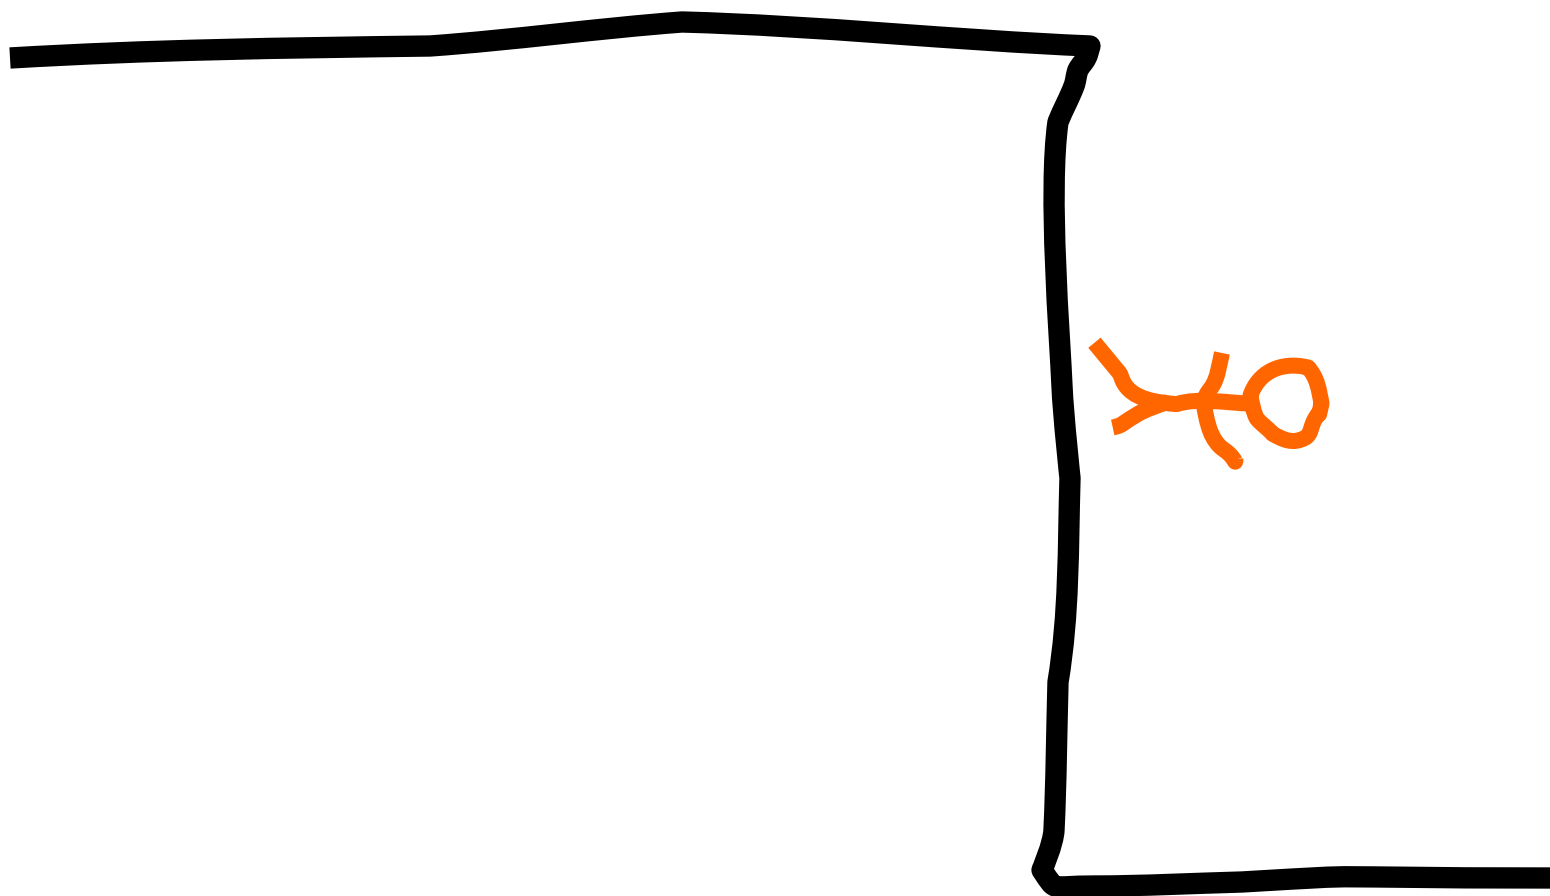

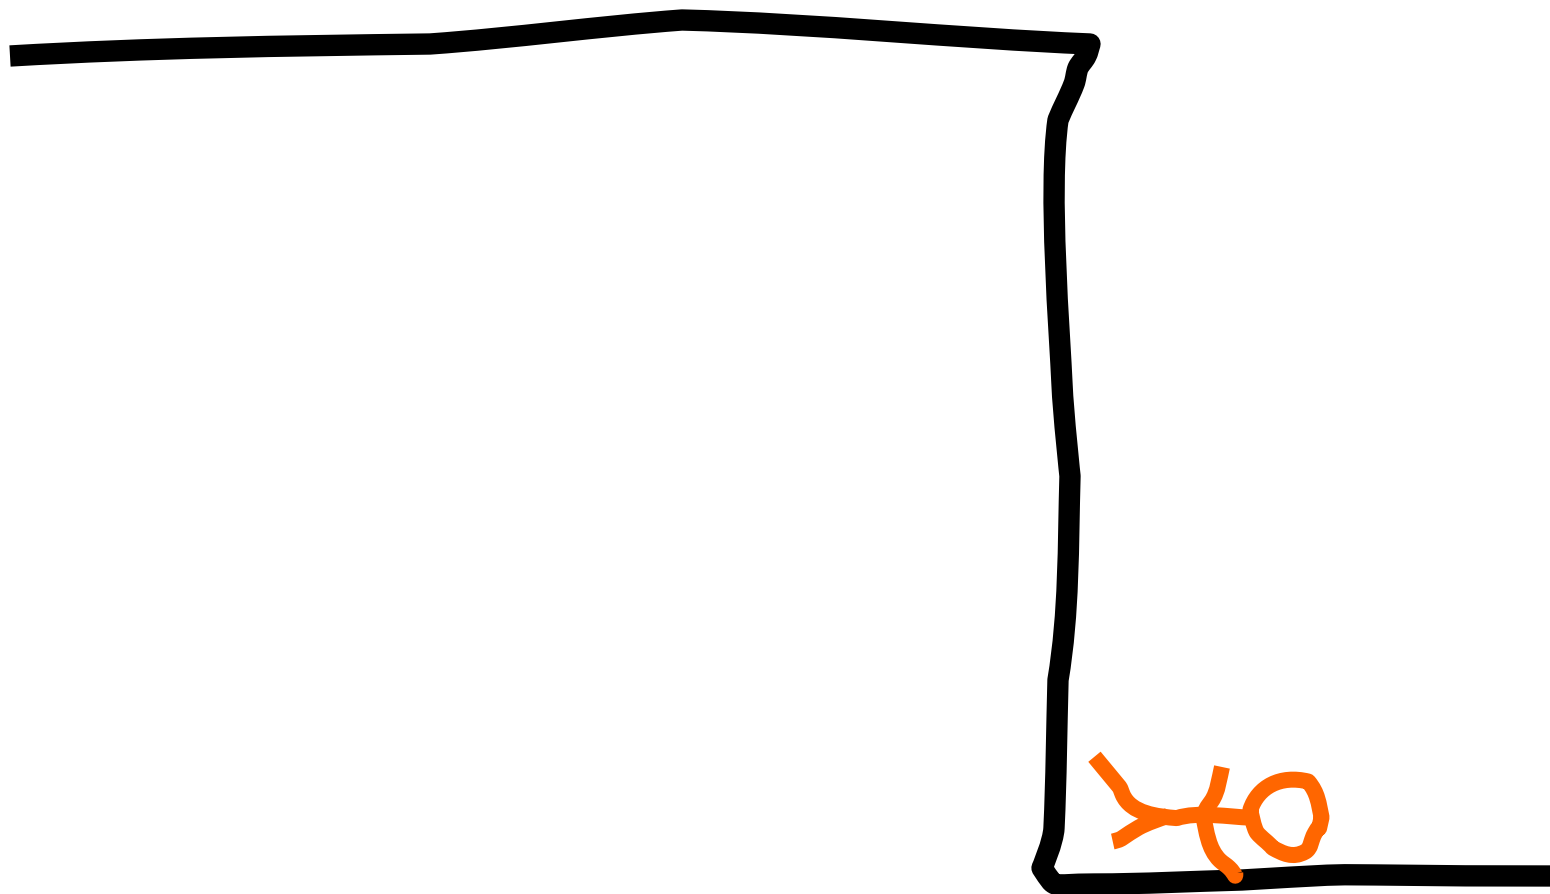

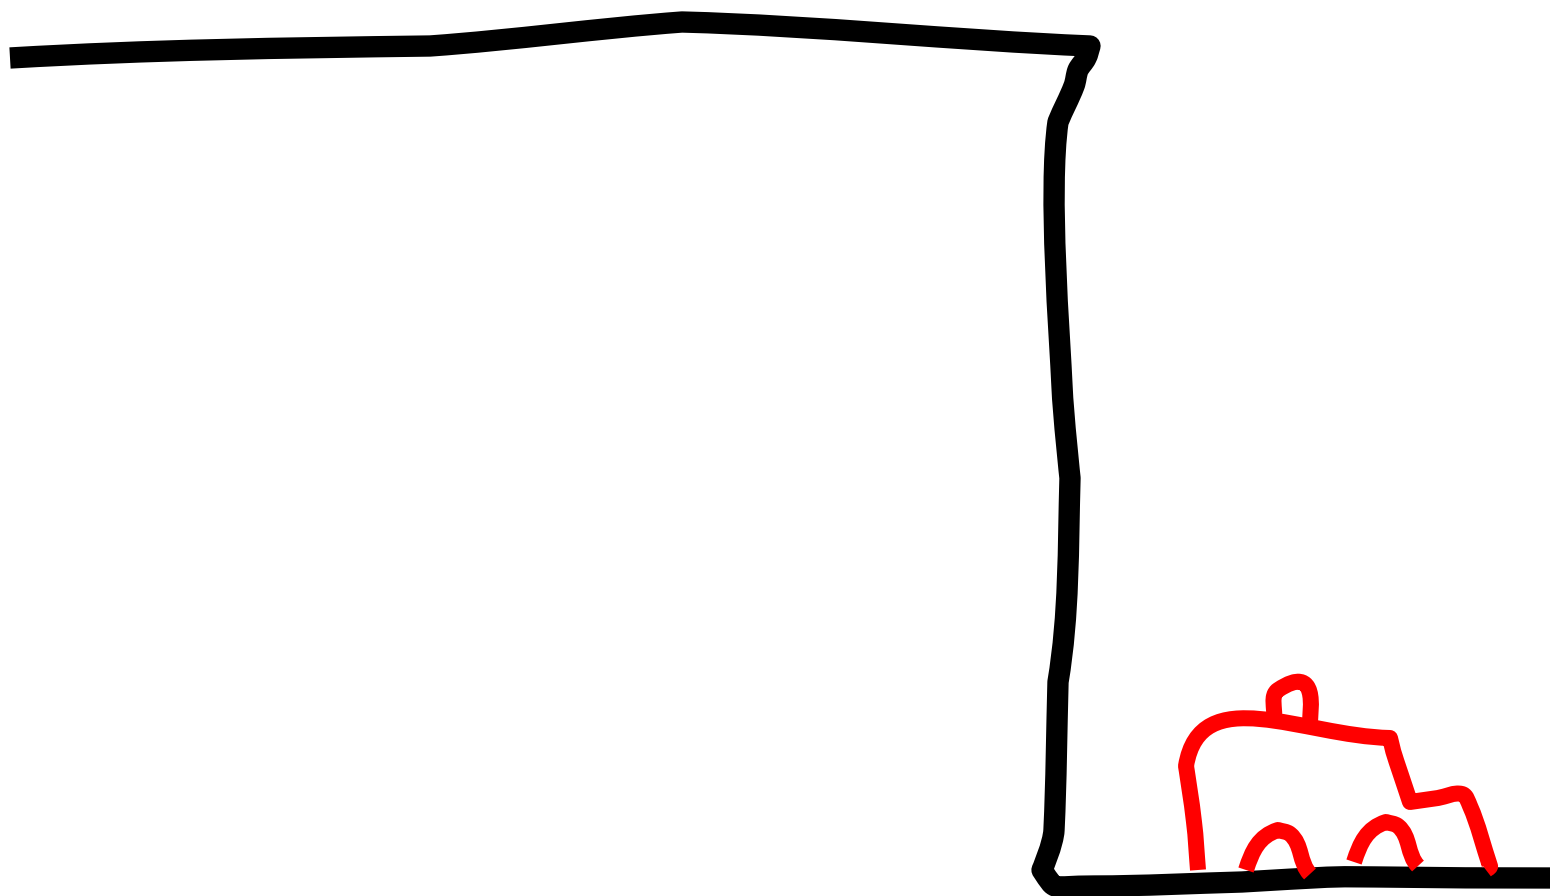

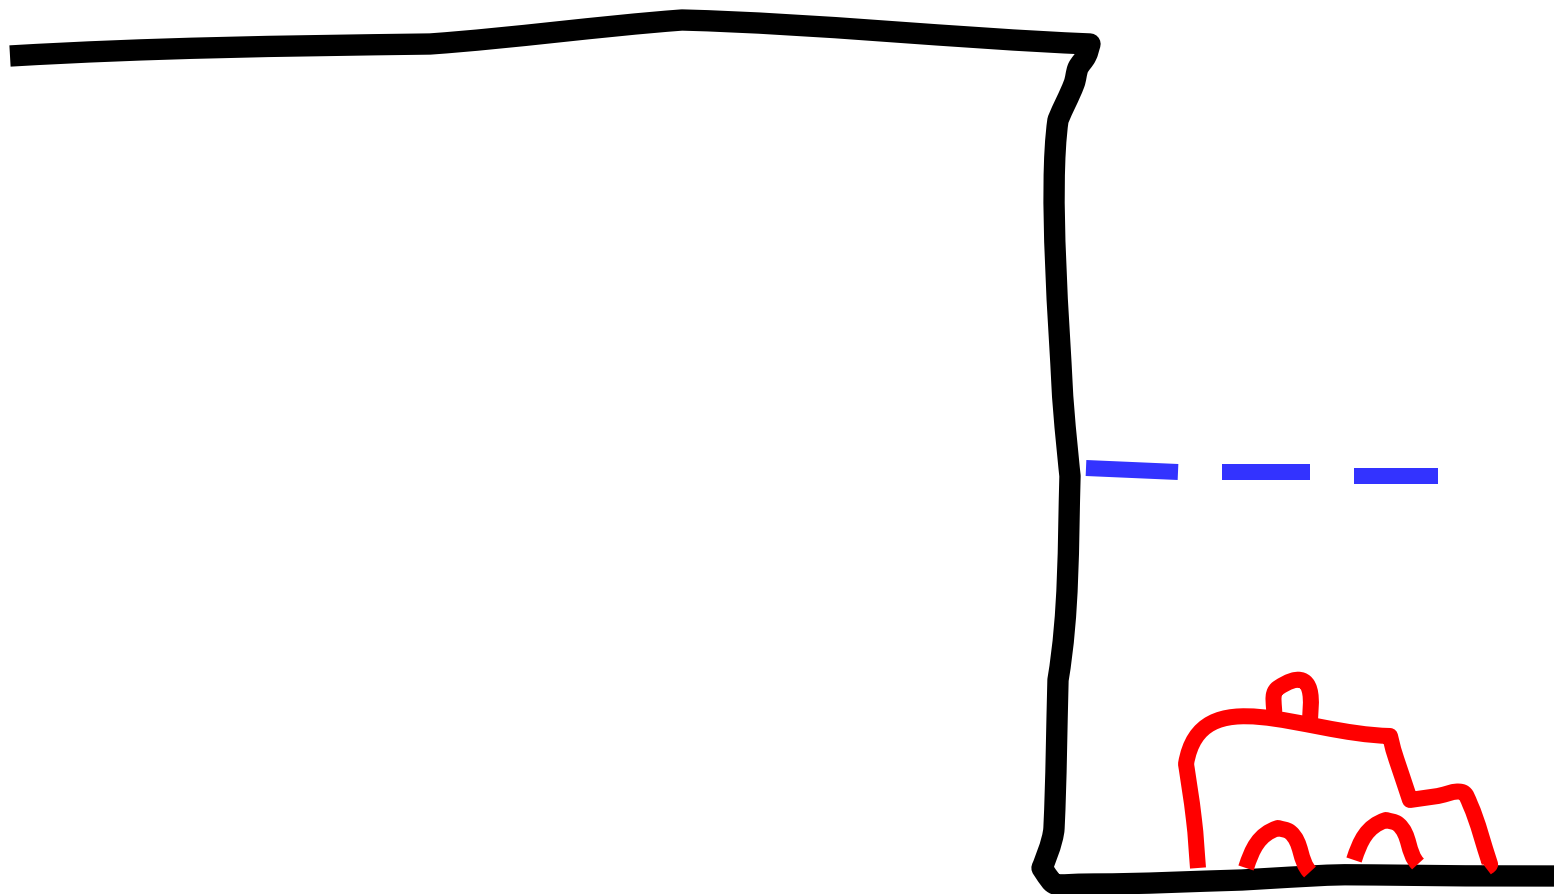

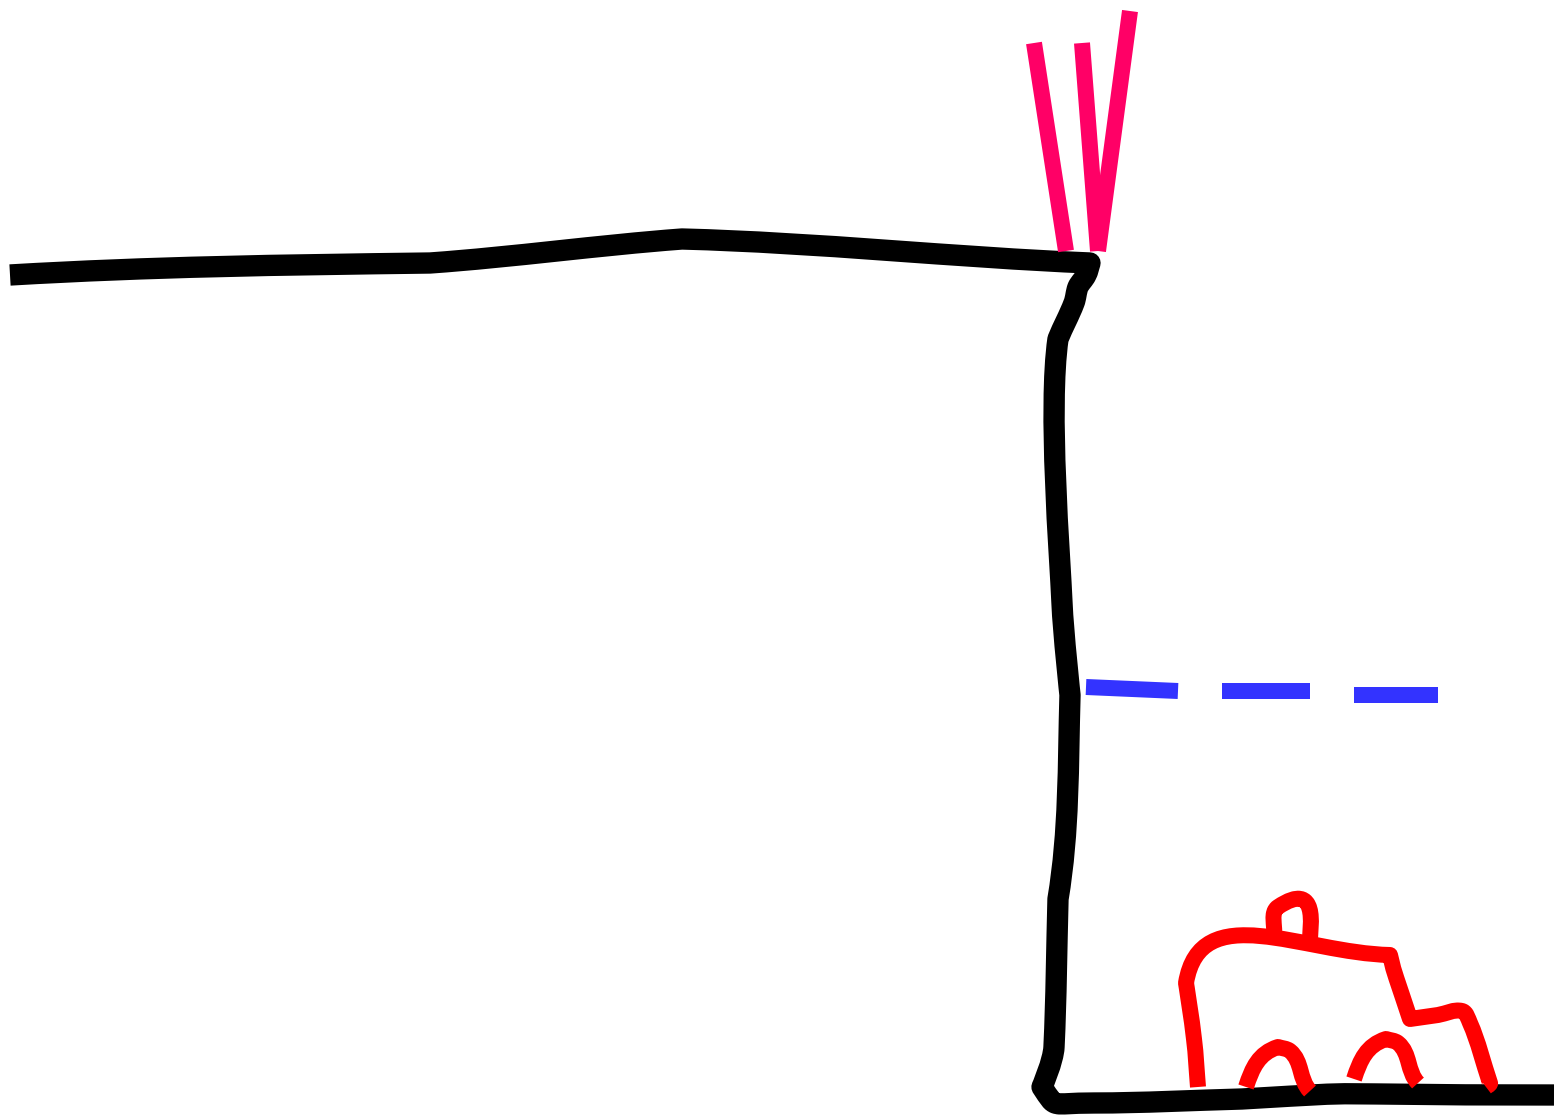

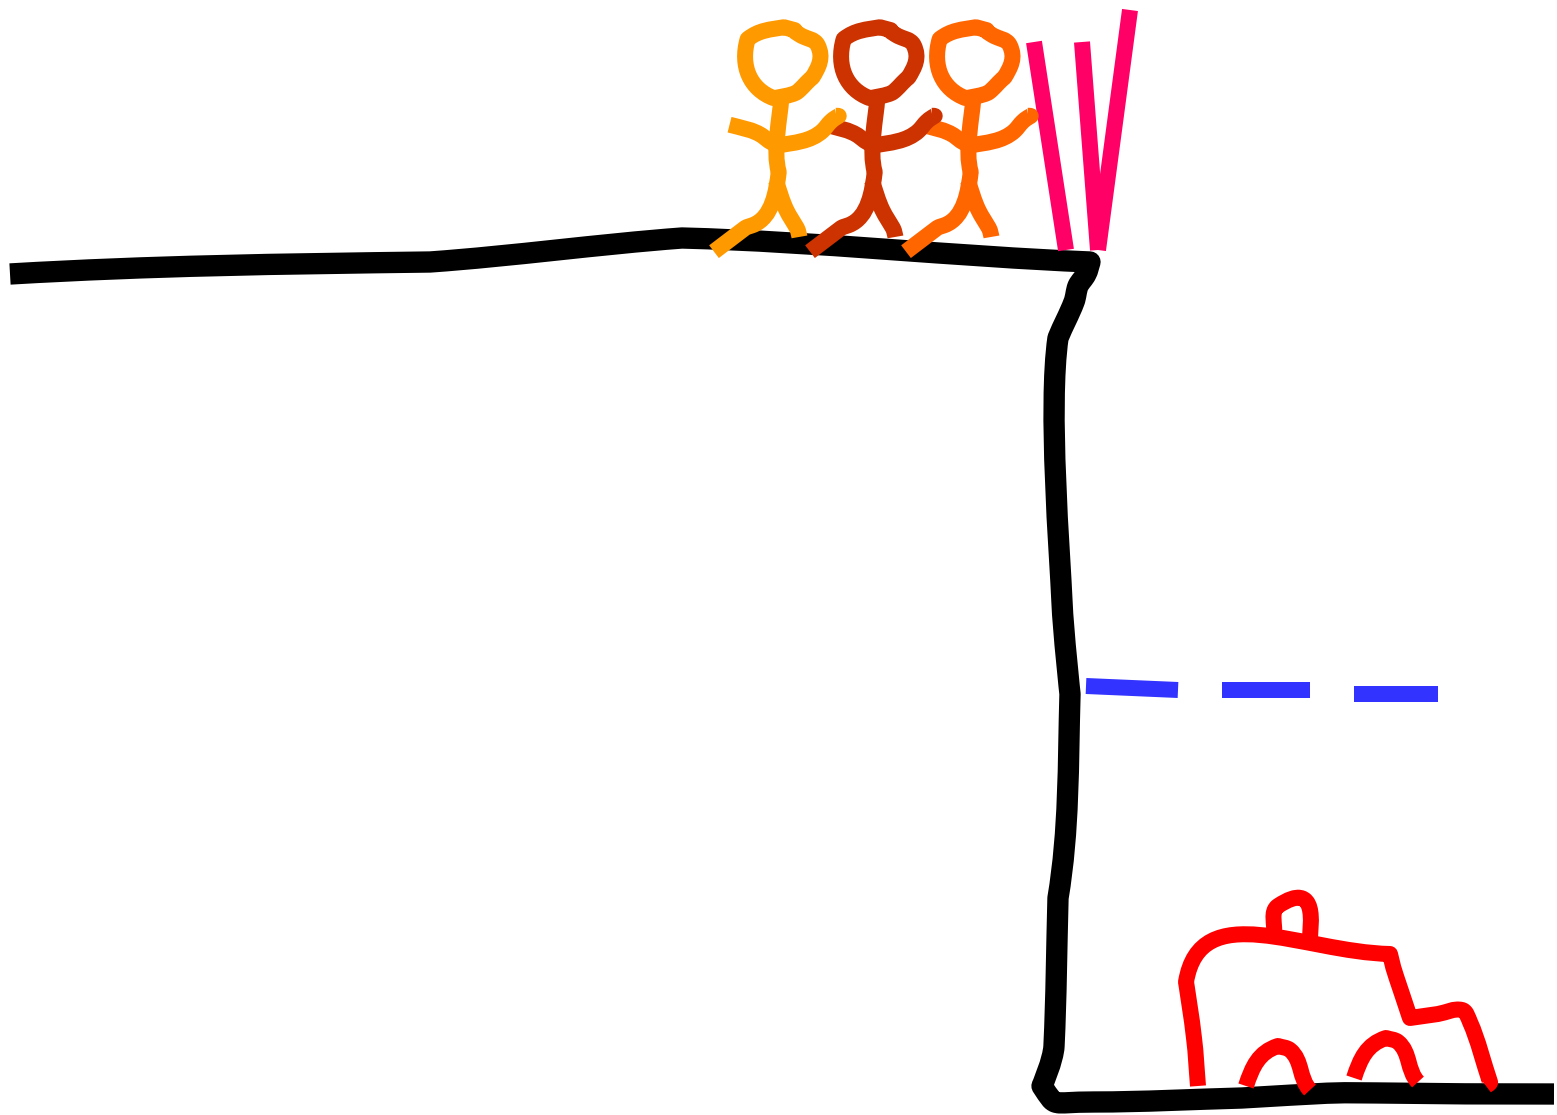

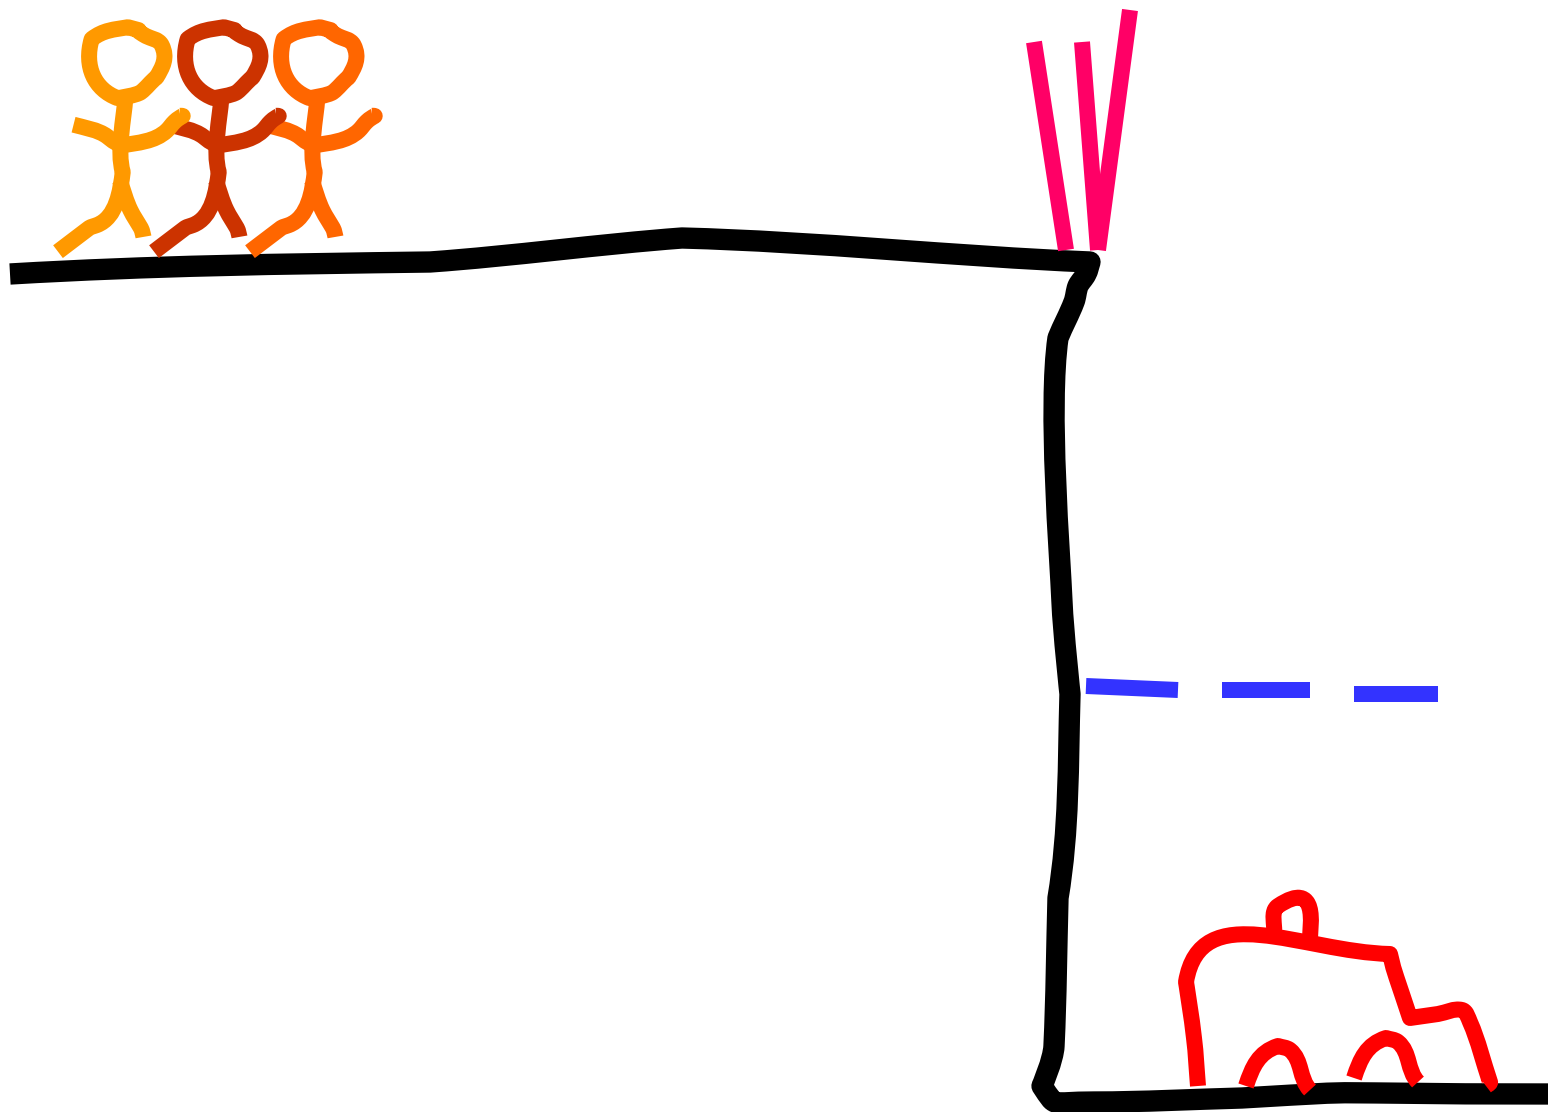

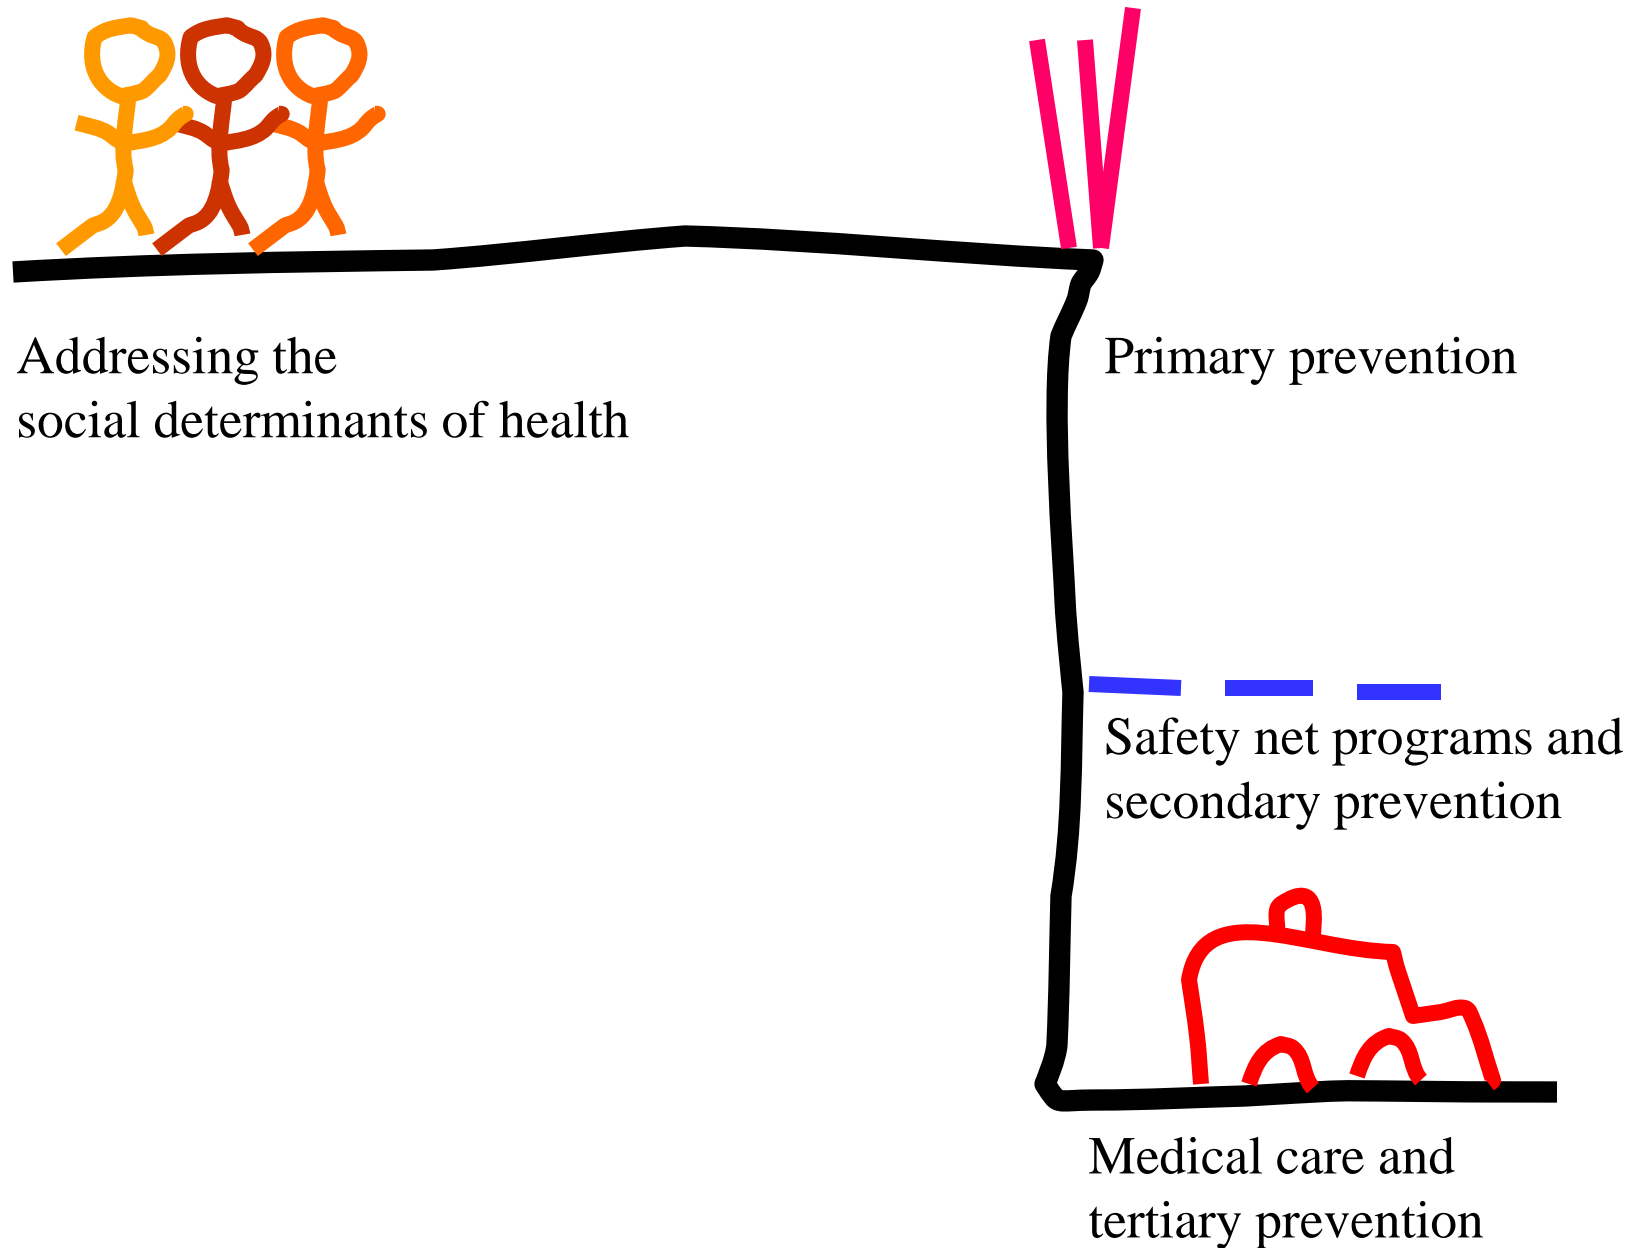

But how do disparities arise?

- Differences in the quality of care received within the health care system
- Differences in access to health care, including preventive and curative services
- Differences in life opportunities, exposures, and stresses that result in differences in underlying health status

Through inequities

How do disparities arise?

Through inequities

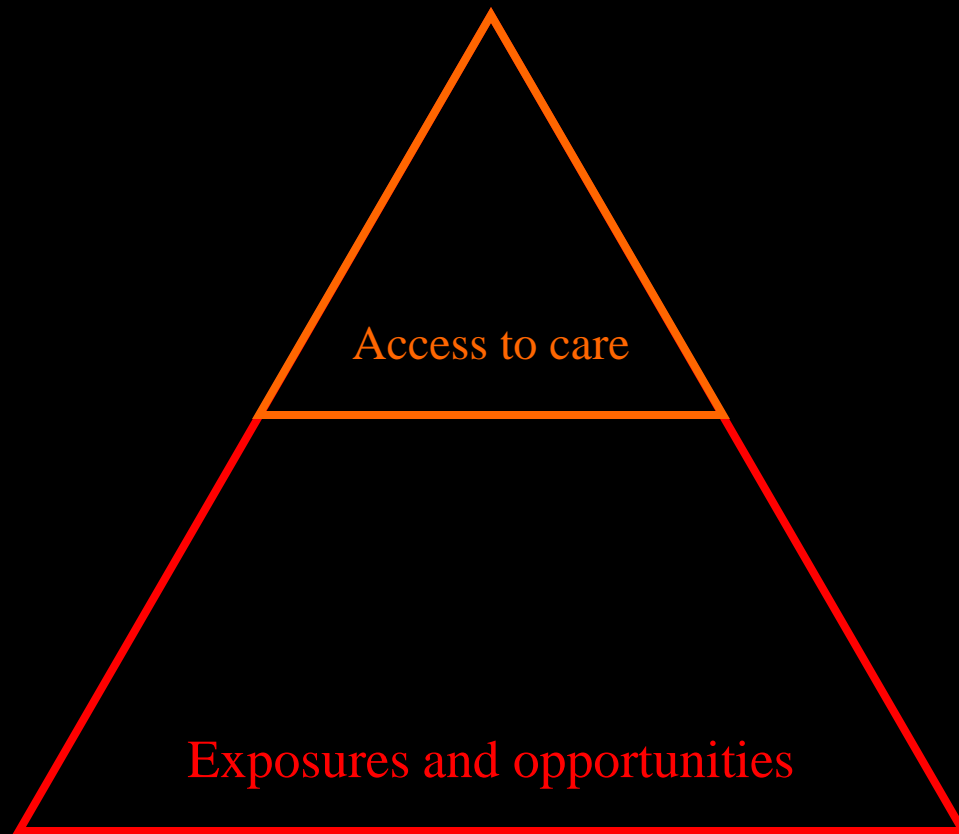

How do disparities arise?

Exposures and opportunities

Through inequities

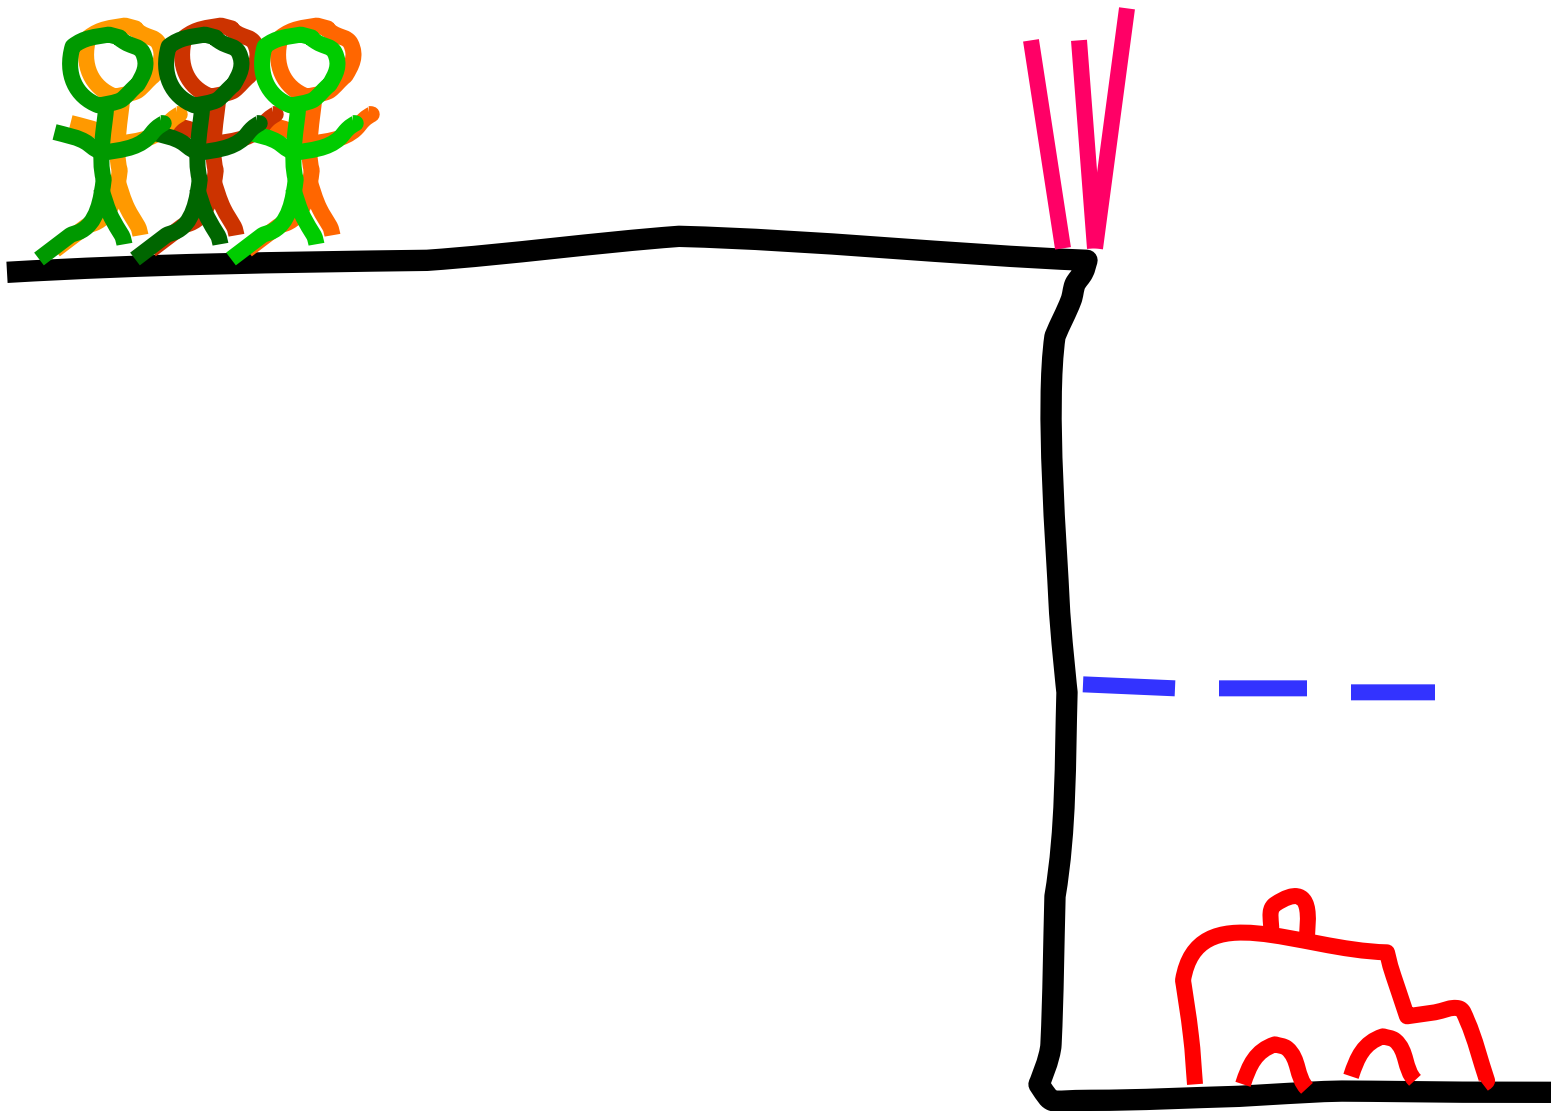

How do disparities arise?

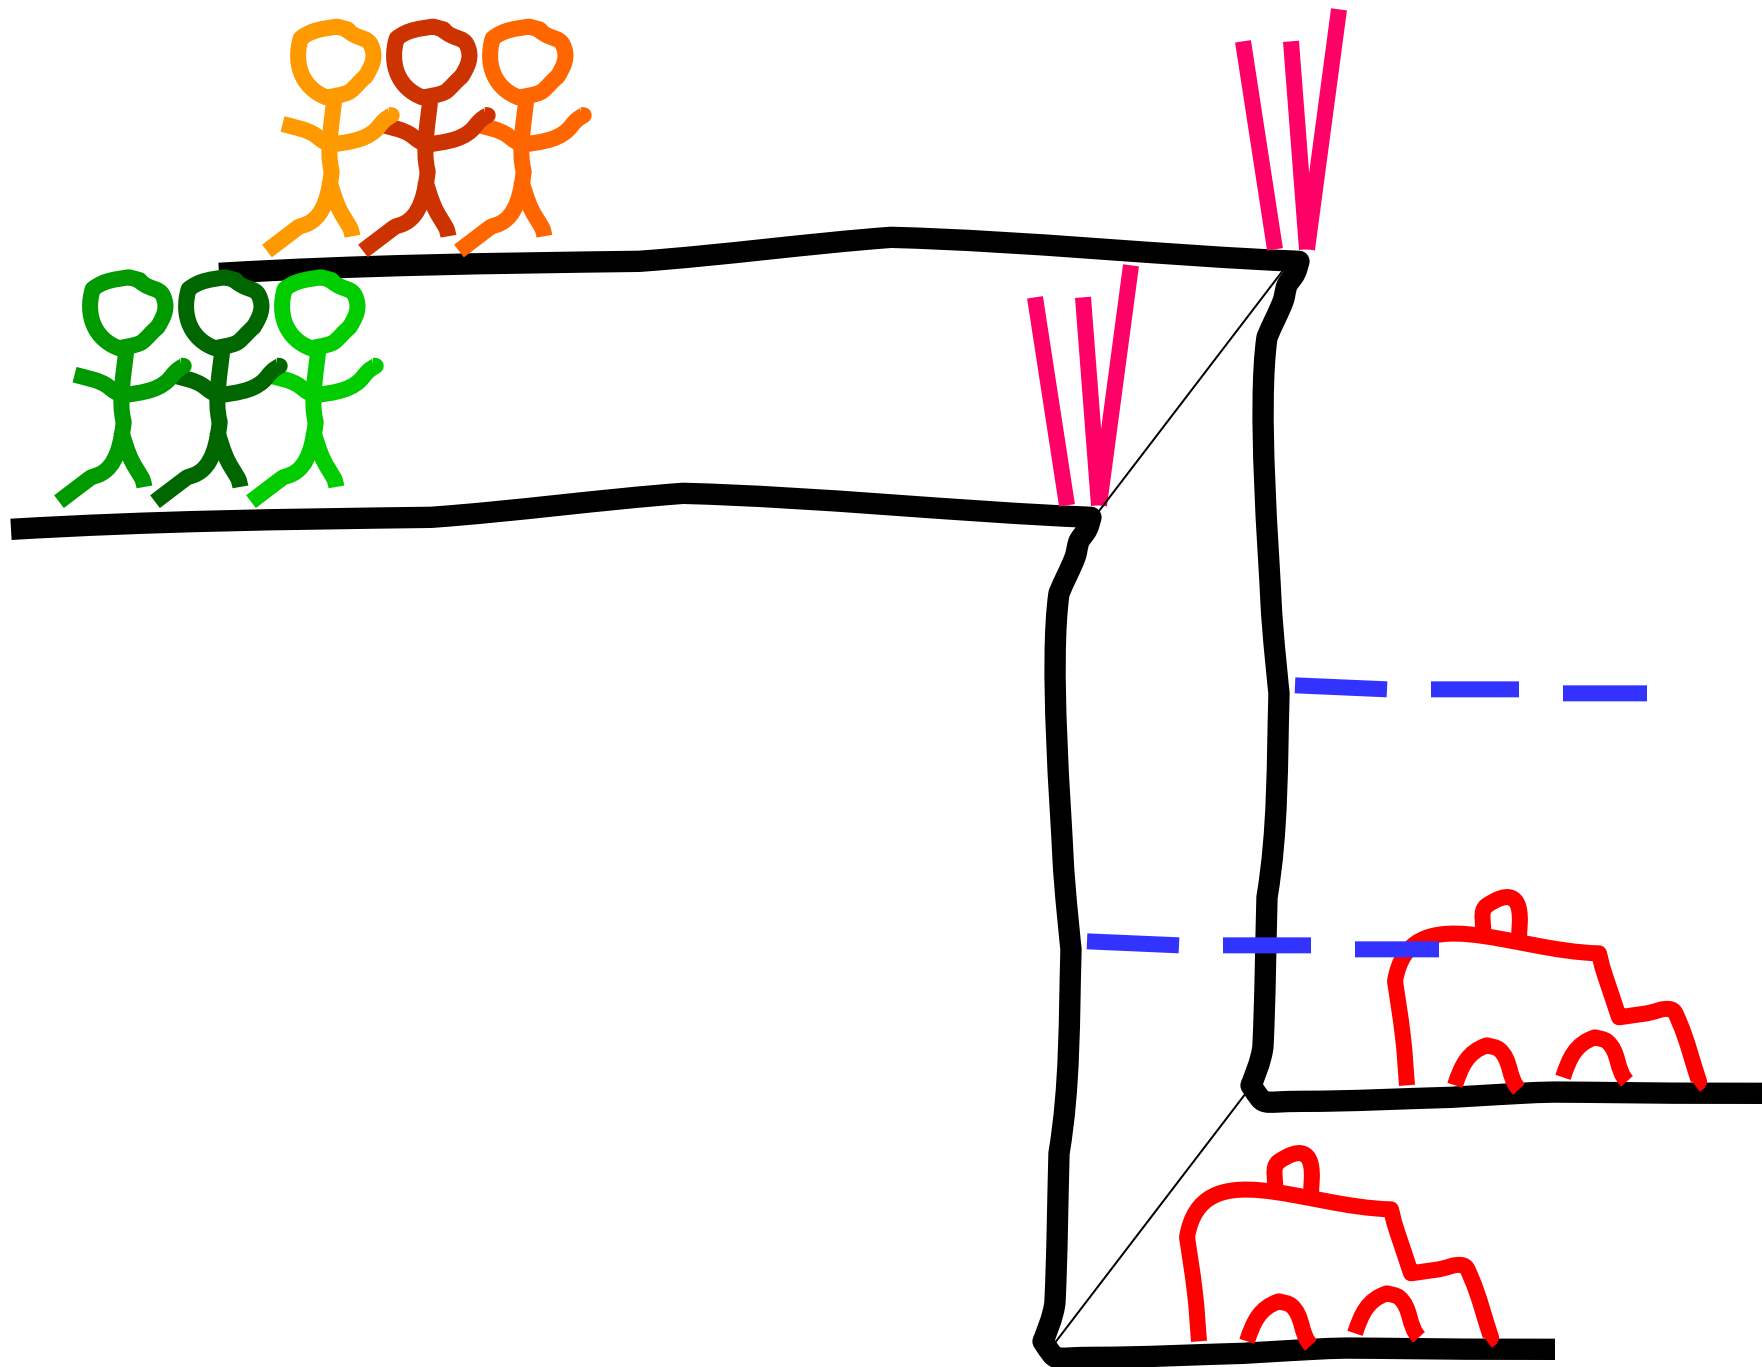

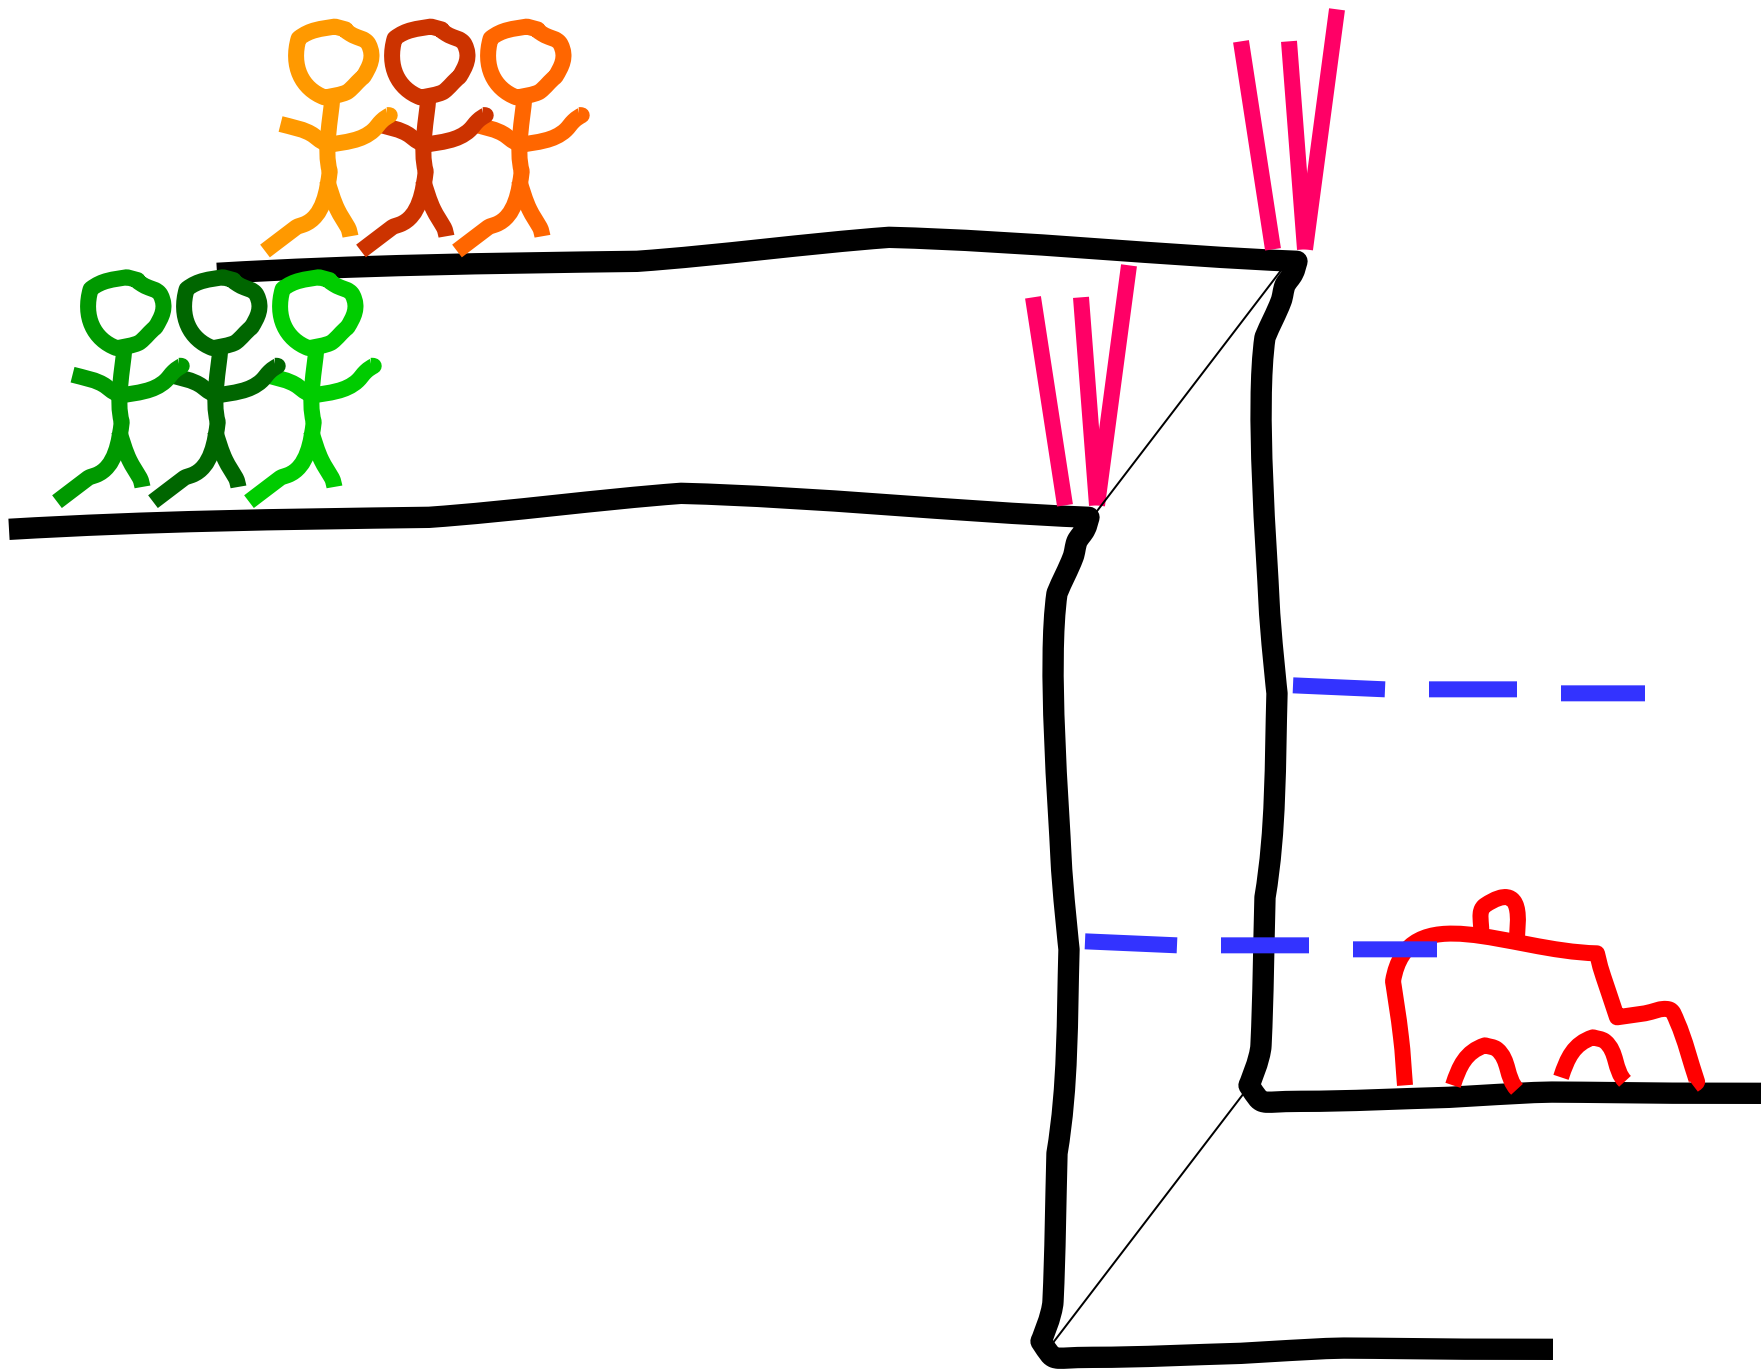

Through inequities

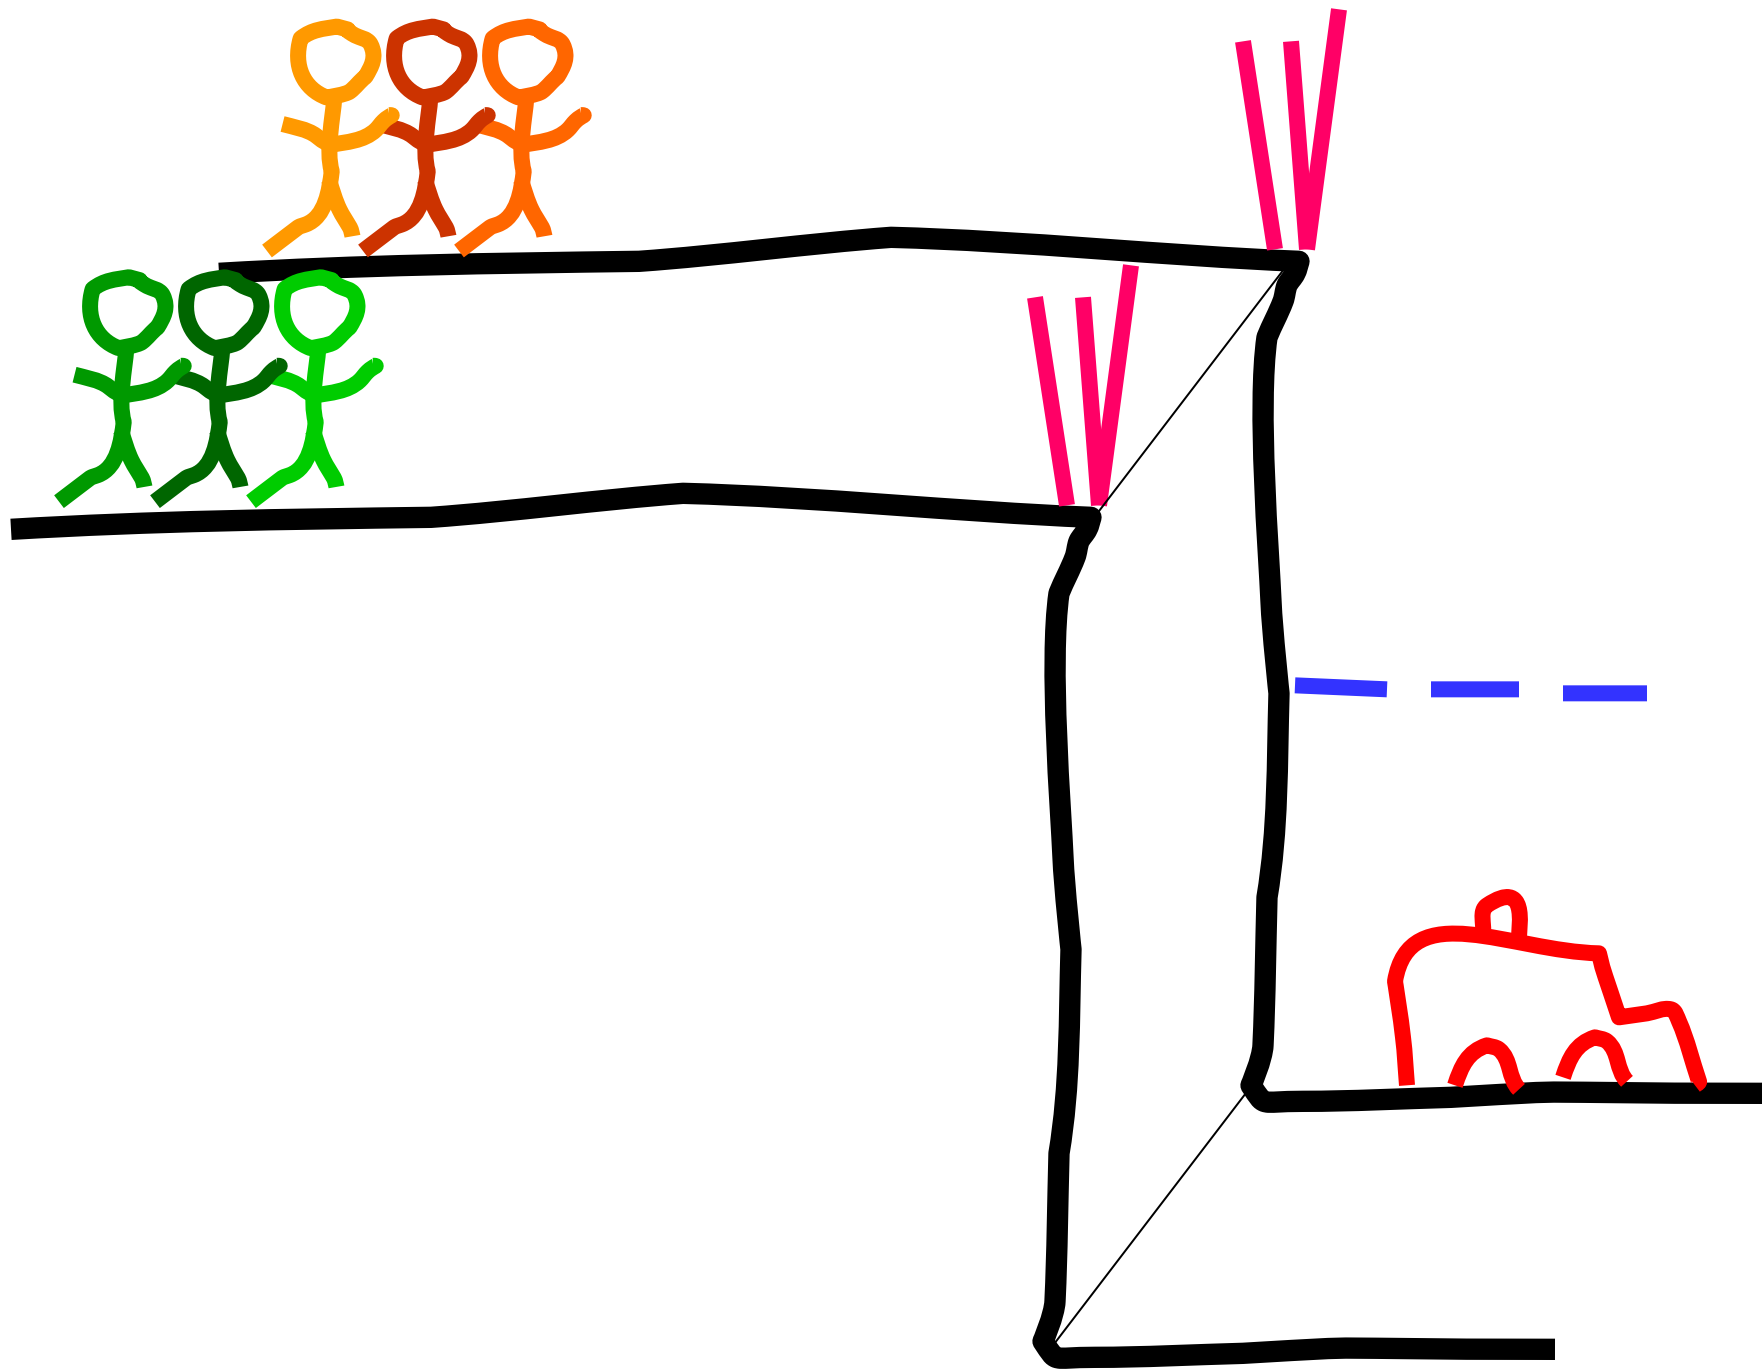

How do disparities arise?

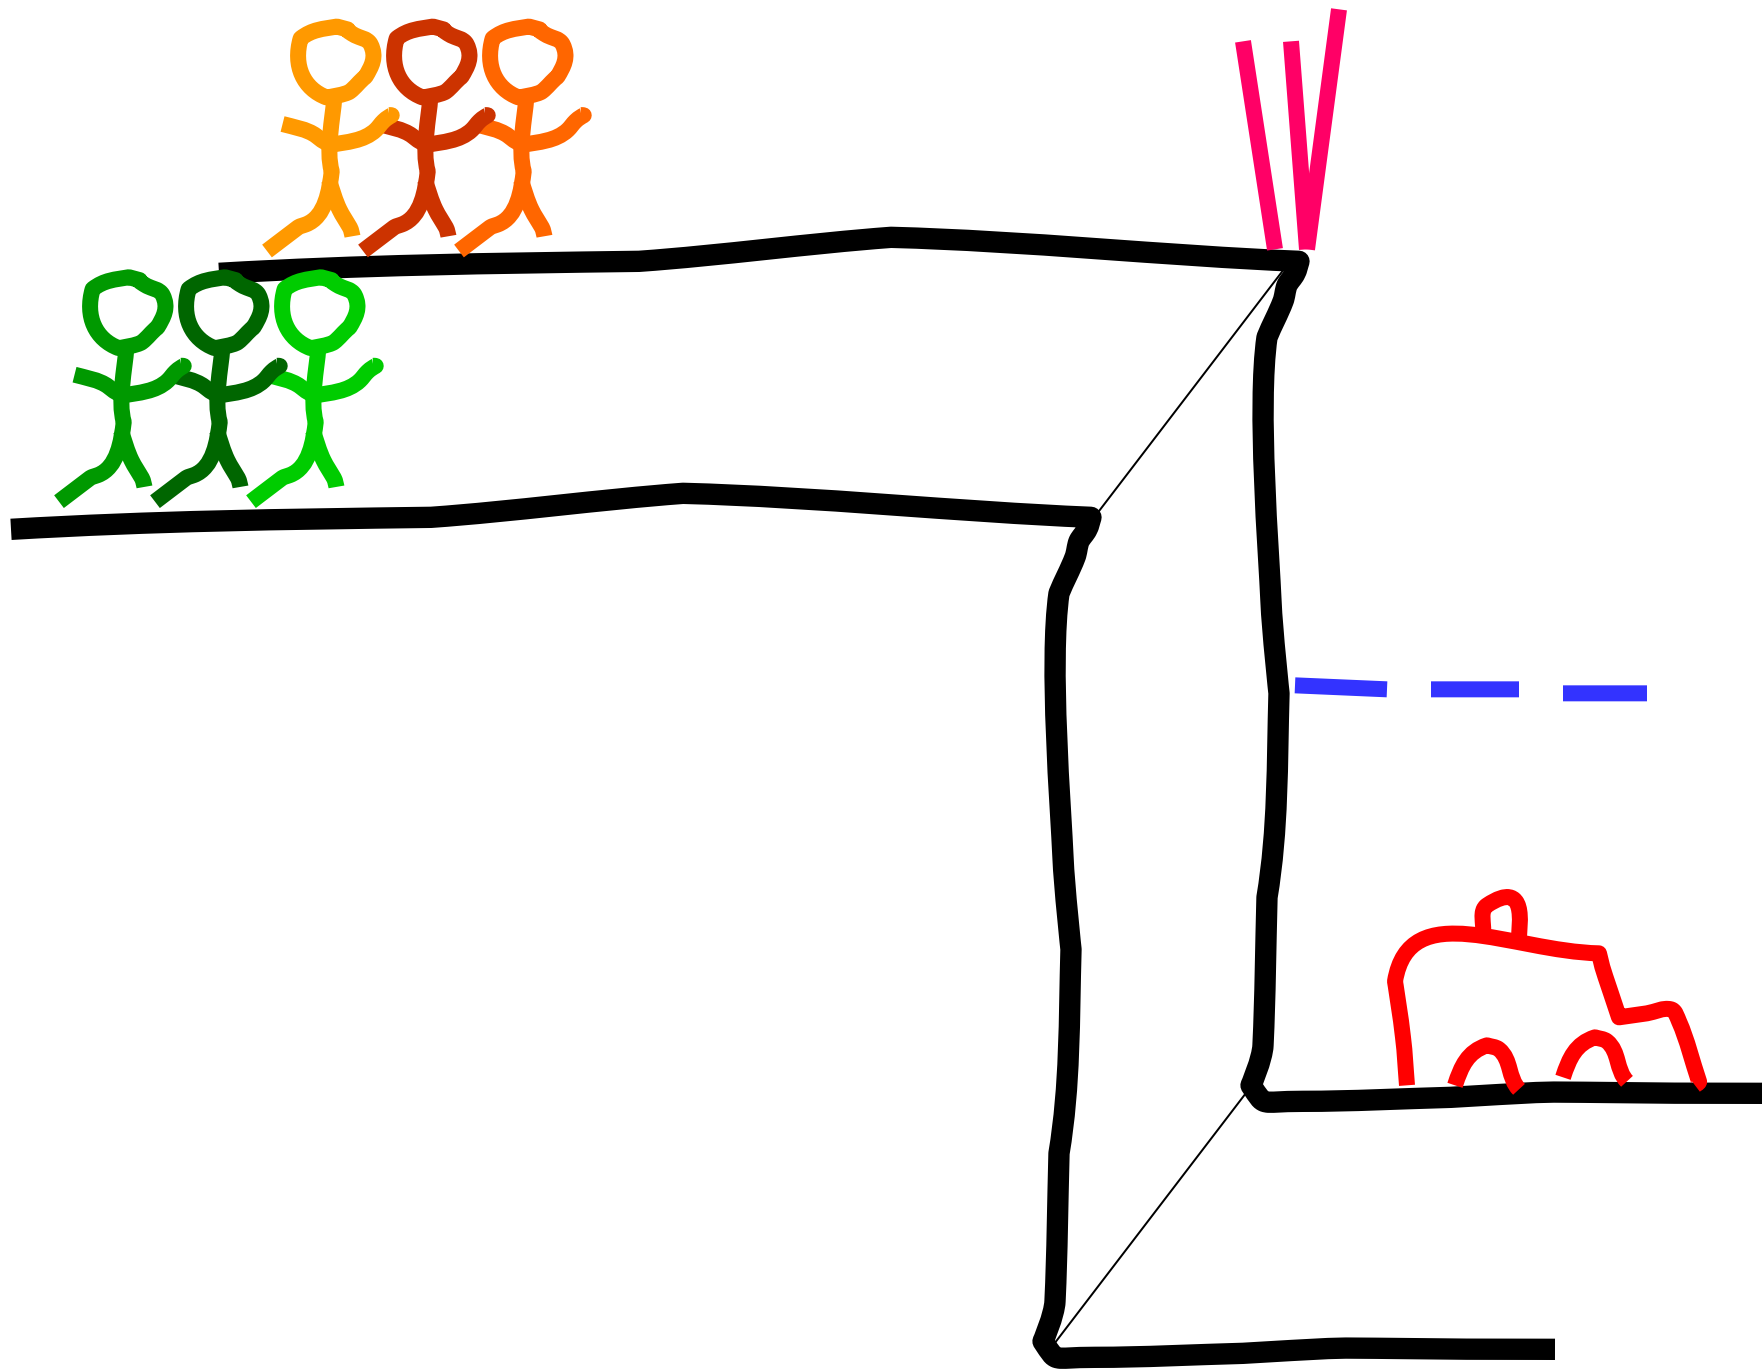

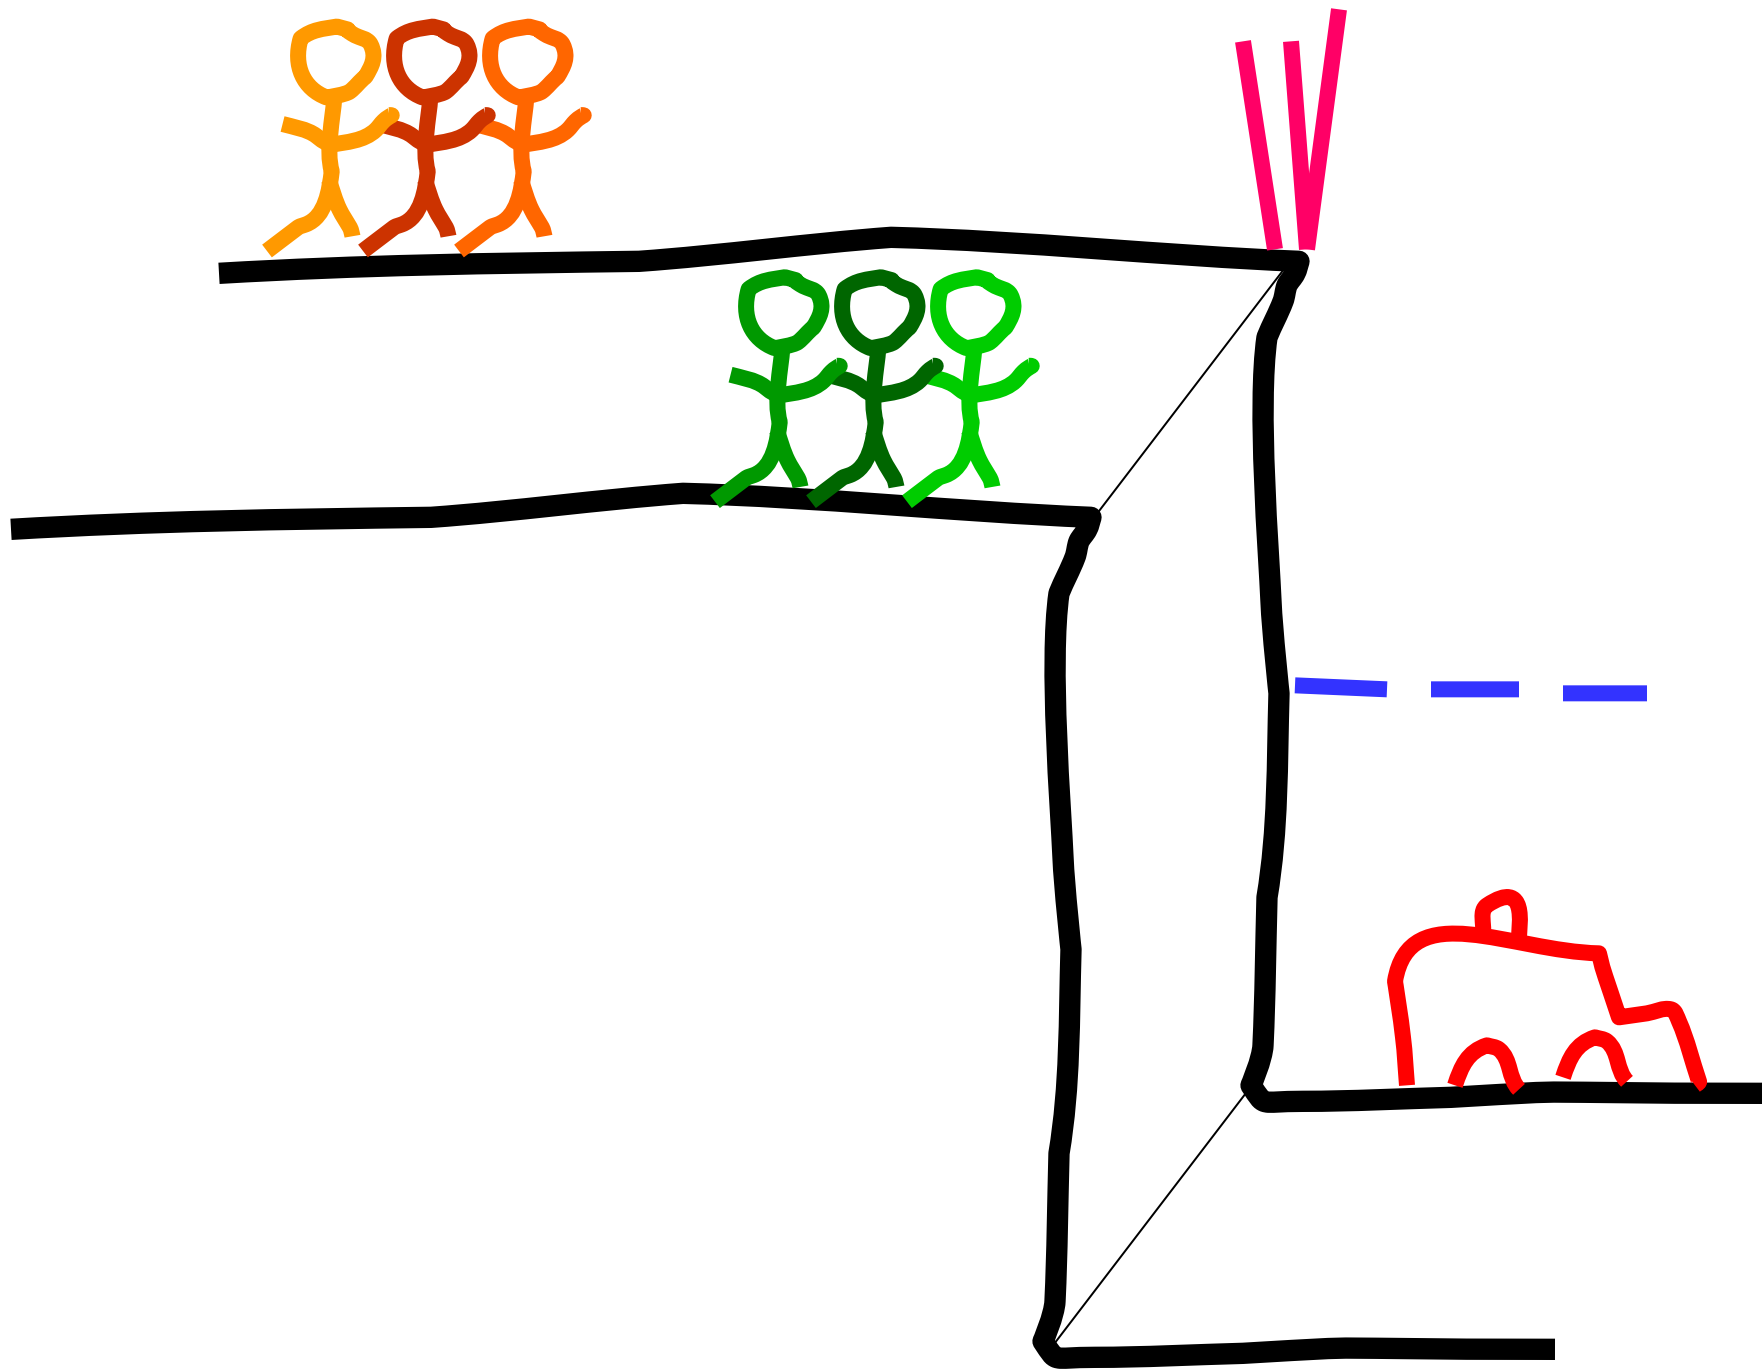

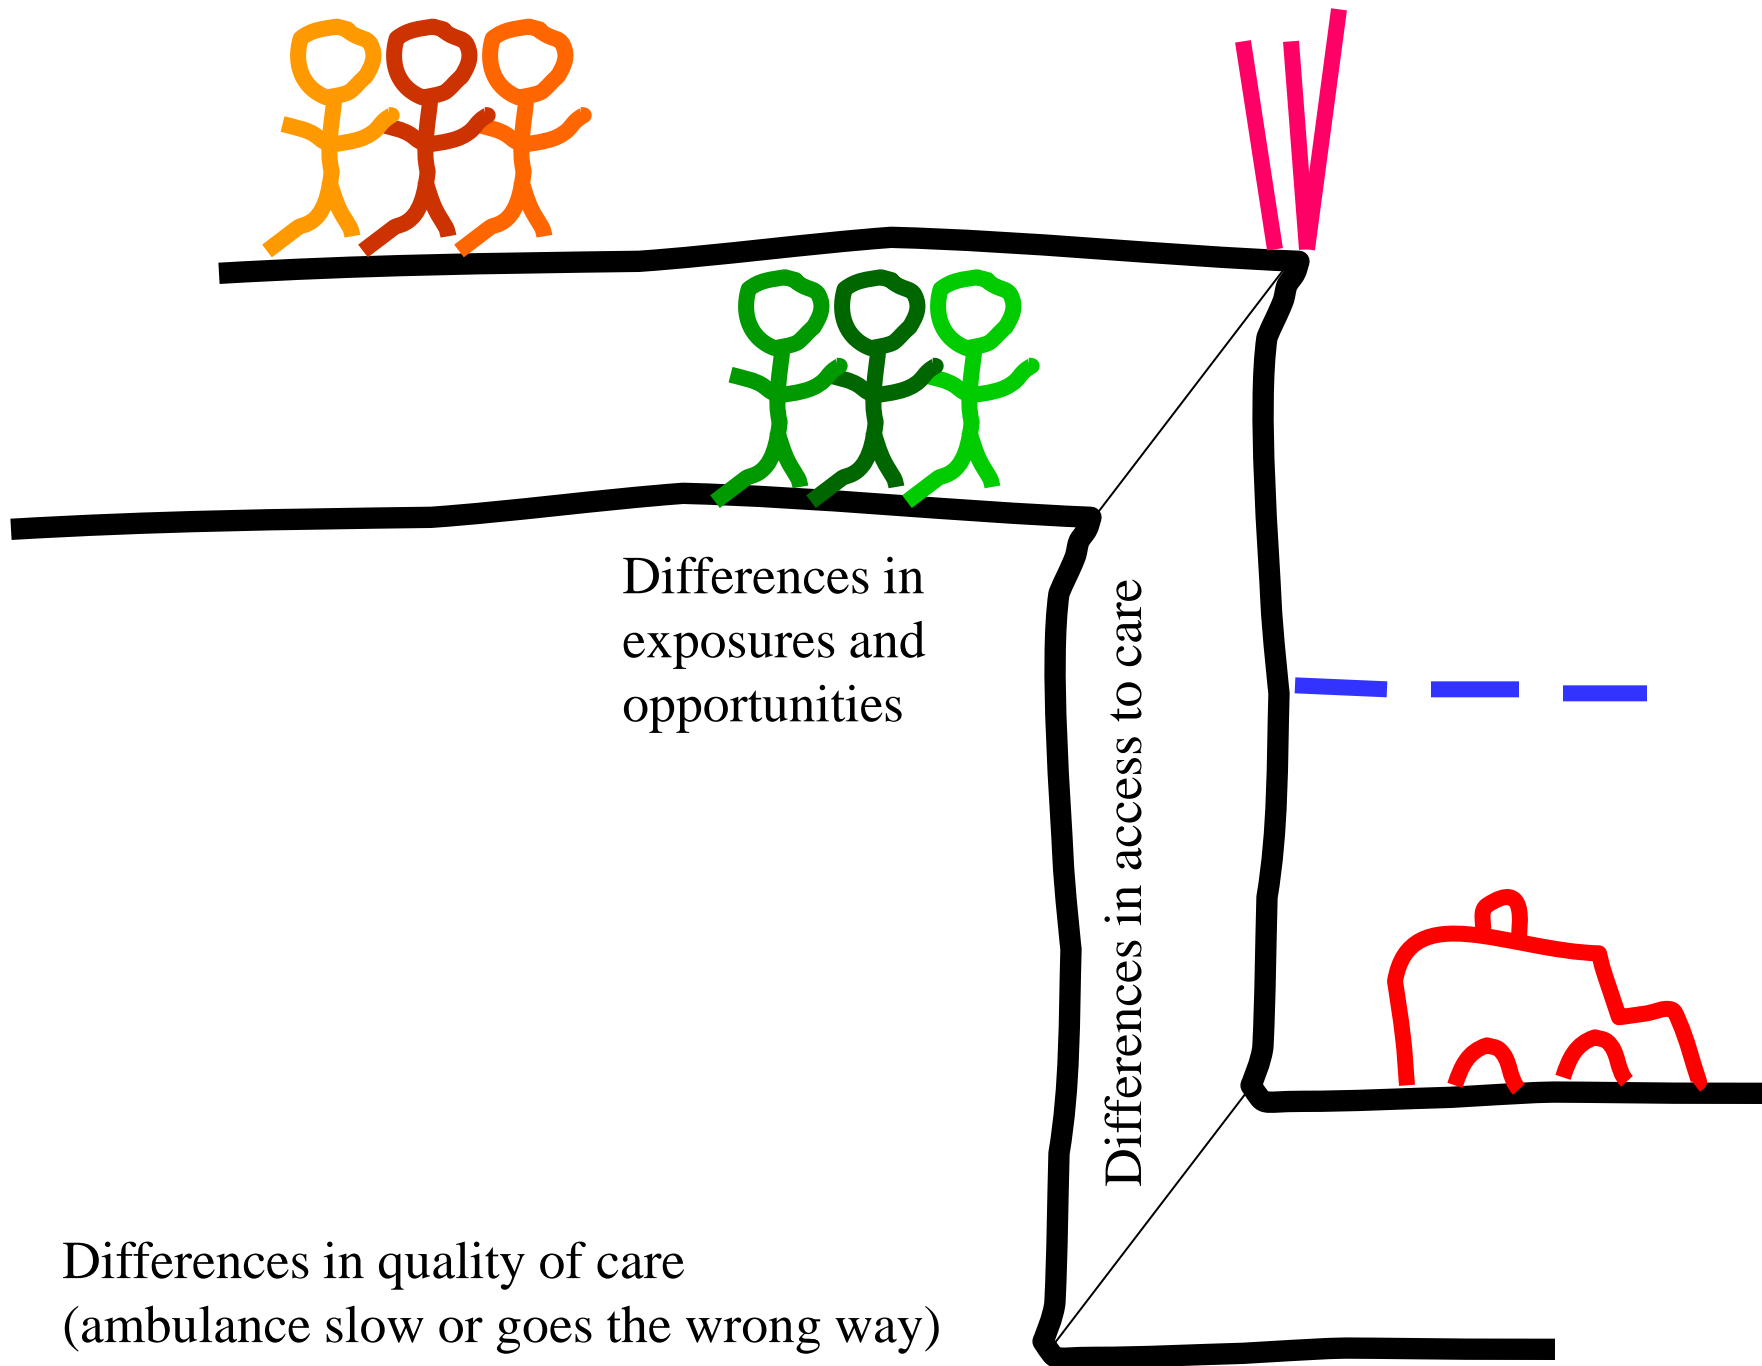

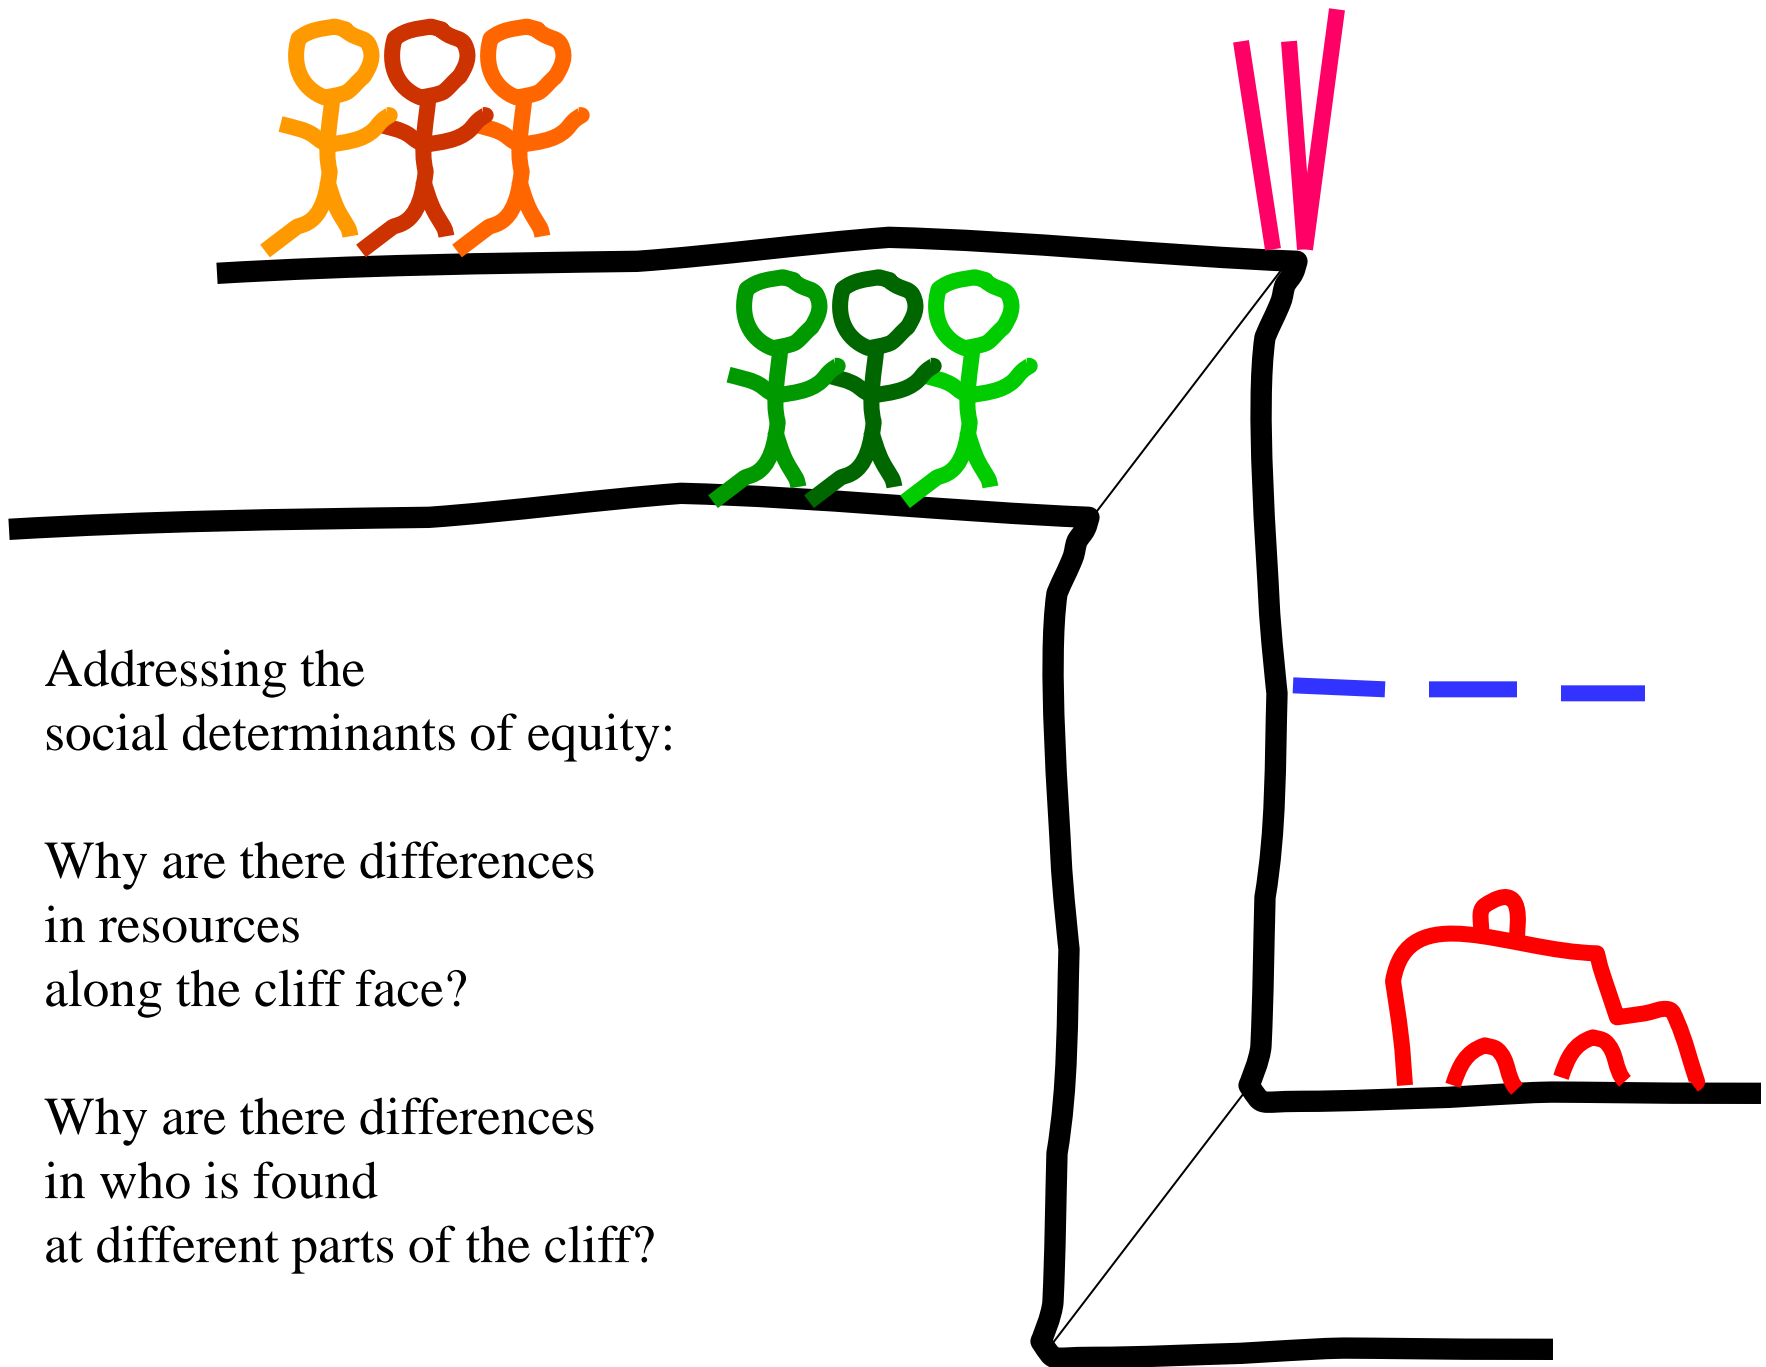

Addressing the
social determinants of equity:

Why are there differences
in resources
along the cliff face?

Why are there differences
in who is found
at different parts of the cliff?
